WORK EXPERIENCE

2021 - 2024 **South Asia – Procurement Finance, Transformation & Operations**
Unilever

Privileged to lead a team of 7+ qualified professionals who support me to manage India + BSPAN for the below activities

Transformation of South Asia procurement function. Divisionalising the value added with non value added portion in the entire procurement landscape, creation of business case to split transform the non value added to 3rd party service provider - ensuring the SLAs are met without compromise on quality and with least business impact.

Category wise **Forecasting** of RM/PM Inventory, setting the targets for each factory & work alongside the factory managers to meet the RM/PM Inventory targets. Frequent monitoring of OTIF supply of materials to the factory by the vendors and working alongside vendors

Running the **CMRP (Central Material resource Planning)** – basis the forecast as created by demand planners, convert the same to supply plan, divide the plan at each Factory level (FSI), split the plan into PR, check for any abnormal variance, work alongside the buyer team to understand the reasons for abnormal variance, coordination with factories for any intra unit transfers, etc to meet the targets.

Managing **Procurement Operations** not limited to contract expiry intimation, I-CAT updation, contract creation, 4way match for Invoice approvals, CLM management, FSI Coordination & timely updation, etc.

Driving the automation / BOT implementation for **entire D2C business** for Unilever spread across 14 geographical locations

Implementation of **Integrated help desk** to management Supplier / user queries across South Asia and Europe (DACH and CEE regions)

2019 – 2021 **Finance Controller Manager, Parent & Holdings**
Unilever

Privileged to lead a team of 8+ qualified professionals who support me in performing the below activities

Unification: Responsible for EUR 80b Unification merger of the 2 parent companies of Unilever and ensuring due diligence across all parameters like preparation of white paper, split of financial assets & liabilities, Stock Swap Ratio, Coordination amongst legal for statutory filings, Functional Currency Assessment, Manpower planning, Fair valuation of EUR 85b + Investments split across multiple countries

Monthly reporting of financial performance under **IFRS/ Dutch GAAP/ UK GAAP** including Inter-company reporting, mismatch resolutions, Working capital performance, etc. with mindfulness of Quality and timeliness. Responsible for 104+ companies

Mergers & acquisitions: 30+ companies/brands including fair valuation of assets, WACC to be used, justification for future projections to be considered spread across markets/geographies, accounting for bargain purchase, goodwill computation

Share based accounting for entire Unilever as per IFRS 2 including dealing with accounting for performance based share plans, Cash settled schemes, treatment wrt vesting conditions.

Annual Impairment exercise: Brand impairment exercise of EUR 8bn & Investment impairment analysis of over EUR 140b + spread across multiple geographies as part of the year end statutory audit exercise. This is one of the critical activity as any impact in CGU will have a direct impact on group profitability

Planning for upstreaming of Dividends: planning for adequate cash flows for payment of external dividends through different projects of upstreaming of dividends to ensure adequate distributable surplus both for current & future requirements.

Statutory Audit: 30 + companies as per IFRS , UK GAAP, Dutch GAAP including listed companies alike Unilever PLC and Unilever NV under FRS 101 and Dutch GAAP 403 reduced disclosure framework with support of Big 4 auditors

WORK EXPERIENCE

2013 – General Manager, Head of Finance, FP&A & IFRS Reporting
Diageo India

2019

Opportunity to witness across all value chains - business partnering, statutory reporting, working capital management & FP&A

Reporting of financials under IFRS to Diageo including preparation of **brand wise profitability, segment wise profitability analysis**, monthly meetings with each RPCs to understand key drivers of monthly performance

Annual Operating Plan: budget preparation, analysis of segment/brand wise profitability analysis, understanding the key drivers of performance into one offs/spill over impacts, etc, linkage of performance of brands with impairment, productivity analysis at each line level such as COGS, Marketing efficiency & effectiveness, Indirect overheads, etc & continuous monitoring of various **Opportunities & risks** impacting the year end performance & identify counter measures to offset the same

Working Capital Management: EVERY MONTH END IS A YEAR END. Monthly meetings with Regional COOs to maintain month end effective balance of Stock in trade in corporation markets (debtors), factory /depot Inventory & Creditors balance.

Business Partnering – Net Revenue Management: Partnering with trade spends team in Analysis & strategizing effectivity of trade spends to ensure maximum revenue for the money spent in key markets undergoing Route to Market changes including categorization of customers based on credit quality, segregation of markets and finding a right matrix mix on parameters like fast going markets, customer command, customer spends, etc.

Business Partnering – Production & Supply: Partnering with Production & supply team in their Make & Move initiatives to track the productivity of the organisation in controllable aspects like material mix (make), ENA prices of basic raw materials, Mono & Outer cartons (Packaging related), distribution network related productivity (Move)

Business Partnering – Commercial: monitoring the effectiveness of advertisement by categorizing the spends basis Production vs Deployment, variance analysis wrt previous years/targets, action plan to bring any over/under spends back on track with agreed targets.

Hub India Impairment analysis: Undertake Brand wise & Hub India impairment analysis of top 9 key brands, brand valuation of sports subsidiary (Royal Challengers Bangalore), computation of WACC, Terminal Growth rate, Co-ordination with stake holders for brand specific growth rates split into Category growth/Volume growth, pricing assumptions, etc

Annual review of **transfer pricing** rates for imports, provide an in-depth study of company's cost centres considering revenue allocation from business along with designing effective recharge mapping route

Part of the **financial integration team at the time of acquisition** of United Spirits by Diageo, implementation of BW/ BFC in line with Diageo financial reporting. Undertake **one-time fair valuation of all assets/liabilities** of USL (accounting for acquisition under fair value) & computation of Goodwill on acquisition

Part of **SAP ECC** implementation across **97 plant** locations in India to ensure automation of reporting process & ensuring presence of apt presence of controls

Part of **3 Big M&A, cumulatively worth £500mil** post Diageo acquisition responsible for financial due diligence including liaison with lawyers/ analysts to ensure smooth integration/disposal of subsidiary

2012 – Deputy Manager
Bosch Limited

2013

One of 4 members who Joined under Junior Management Programme which is a fast track programme to leadership development. Stint of 1 year mainly comprised of short terms (6 months) project specific roles across departments which included

- a) Process improvement in areas of Accounts Payable & undertaking feasibility analysis wrt outsourcing of accounts payable function
- b) Undertaking product costing & rejection analysis of components of Spark plugs division
